

Certifications Arista

Le nouveau programme de certification Arista valide les compétences pratiques en networking et en automation grâce à un processus d'évaluation moderne et flexible. Structuré en quatre niveaux, de l'Associate à l'Expert, et organisé en parcours spécialisés (Foundations, Data Center, Campus, Routing, Automation), il permet de développer une expertise reconnue sur les technologies stratégiques d'aujourd'hui. Accessible et orienté vers la pratique, ce programme aide vos équipes à renforcer leurs savoir-faire tout en valorisant leur maîtrise des solutions Arista.
